

Dear Parents and Carers,

Thank you for helping us to set up the Critical Worker school places this week. It is very important to us that you can attend work and know that your child is learning in a happy and safe environment. As you will know, demand for places is very high and this is causing some concern. We need your help in order to keep everything running smoothly. Please make sure that you do not send your child to school on days when they could be cared for at home, even if you have pre-booked the place. Similarly, please do not send your child every day just to keep things the same for your child. You will not lose your place if you cancel at the last minute or if you have a shifting work pattern so please do everything you can to help us to manage this situation. Your support will enable us to meet your need.

Best wishes,

Mrs Galloway
