3. Barriers to future attainment (for pupils eligible for PP, including high ability)
In-school barriers (<i>issues to be addressed in school, such as poor oral language skills</i>)
A. Oral language skills are lower for Pupil Premium children in F2 and KS1. This impacts on reading fluency, cultural capital, social interaction and slows progress
B. In KS2 PP pupils, especially LAC and PLAC children, have behaviour and or attachment issues, which have a detrimental effect on their academic progress and their social interactions. High achieving PP pupils are making slightly less progress than other higher achieving pupils across KS2. This prevents sustained high achievement in KS2.

C. In upper KS2, high achieving PP pupils have language and social enrichment needs stemming in most cases from social deprivation, this limits access to the full range of activities across the curriculum. A minority of PP pupils in upper KS2 have attachment issues compromising wellbeing.

External barriers (*issues which also require action outside school, such as low attendance rates*)

D. Some parents face significant challenges parenting some PP pupils, especially LAC and PLAC, poor behaviour and fractured relationships result for some PP children.
