

Decode familiar and unfamiliar words using blending as the prime approach

CORE

Use phonic knowledge to decode words

Respond speedily with the correct sound to graphemes for all 40+ phonemes (and alternative sounds for graphemes where applicable)

Identify initial sounds in unfamiliar words. Recognise some letters in other positions

Blend sounds in unfamiliar words containing GPCs that have been taught

Blend phonemes to read CVC words (yellow)

Blend phonemes to read CCCVC and CVCC words (blue, green)

Blend and segment sounds in consonant clusters and use this knowledge in reading

Read common exception words, noting unusual correspondences between spelling and sound and where these occur in the word

Read words containing taught GPCs and -s,-es,-ing,-ed,-er and -est endings

Read other words of more than one syllable that contain taught GPCs

Read words with contractions and understand that the apostrophe represents the omitted letters

Expect written text to make sense

Re-read to clarify meaning

Read aloud fluently with attention to a range of punctuation (reading words without overt sounding and blending)

Check print detail carefully, saying a word slowly and running a finger under to check the phonemes

Make 1 to 1 correspondence between written and spoken words

Track visually without finger pointing 2 or 3 lines of print on a page

Re-read with improved expression, attending to fluency and phrasing (put words together so they sound like talking)

Distinguish between a word, letter and a space

Take more note of punctuation to support the use of grammar and oral language rhythms (voice down at the end of a sentence)
